

Bath & Shower Gel Vegetal Bleaching Cleanser Liquid & Bar Soaps

On contact with water Argital vegetable soaps produce a particularly soft foam that gently caresses the skin. They are produced using only pure vegetable oils and pure essential oils; the ARGITAL **Green Clay** which they contain delicately removes the layer of dead cells from the epidermis with a gently exfoliant action, leaving the skin soft and radiant.

100% Natural - Preservative-free - SLS free (foaming agent) - Cruelty free
(The foaming agents in ARGITAL products are derived from precious vegetable raw materials)
